Republic West Co-Owner Jim Weisman Named One of Arizona's Best Business Leaders

Recognition comes from over a decade of dedication to the needs of the customer

Scottsdale (March 14, 2006) – Jim Weisman, co-owner of Scottsdale-based home renovation company Republic West, was named one of Arizona's Best Business Leaders by BizAZ Magazine.

Business owners from across Arizona were judged for their ability to generate business and remain profitable, please their investors, and affect their community in a positive way. Weisman, with his focus on delivering quality goods and service, was one of only five business leaders chosen for this honor.

Republic West, founded in 1995 by Weisman and his business partner Linda Zimmerman, is an industry leader in home renovations in the Phoenix area. Republic West offers both high-quality goods, and installation by knowledgeable, supportive craftsmen. The company hires and trains best-of-class operational management, senior and apprentice foremen, customer service personnel, division administrators, and design and sales staff. The result is an attention to service, rather than closing sales without regard to quality.

The company also benefits its customers by offering high-end merchandise in their remodeling projects:

- Doors made from Therma Tru fiberglass are available, which have a higher energy-efficiency than wood, do not dent or warp as wood does, and still carries all of the aesthetic quality of wooden doors.
- Windows are available in a wide variety of both designs and energy-efficient materials. In fact, Republic West is the only company in Arizona that offers Smart-10 windows, a design that allows in light but has insulation properties of block wall.
- Cabinet refacing can give home owners a wide variety of options for giving their home a new look: Laminates, solid surfaces, engineered stone or granite. This household “facelift” can give a gorgeous new look to a home, while still being low in cost.
- Kitchen remodeling is a specialty of Republic West’s. Though the combination of their award-winning designers and their computerized design system, the end result can be shown exactly as it will look. Homeowners can be assured of the best aesthetics, use of space, and functionality.

Republic West is a company that stands for quality, honesty, and the best value. Their vision is to deliver customers the best home improvement experience possible, before, during and after their home remodeling project.
